Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim s 1, 6 and 8 recites the limitation "the" in lines 3, 4, 7 before the words "ends", "adjacent", "second" for claim 1; in line 3 before the word "region" for claim 6; and in line 4 before the word "inner" for claim 8. There is insufficient antecedent basis for this limitation in the claim.

Regarding claim 8, the phrase "bead like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Mittelstrass (5,992,174). Mittelstrass discloses a collector profile of condenser comprising a motor vehicle air conditioning system having a pipe/ribbed block 20 and collector pipes 1 which are arranged on both sides and which receive the ends of the pipes, and a collector 1 which is arranged in parallel with one of the collector pipes and

which is fluidically connected to the adjacent collector pipe via two openings 21/22 and receives a dryer/filter 6, characterized in that the collector 1 has a first soldered -in closure part 3, in that the dryer/filter 6 cartridge is mechanically connected to the first closure part 3, and in that the second closure part 5 are non detachably/firmly connected to the collector 1. See Fig. 2-3 and column 3, line 14 to column 5, line 4.

Allowable Subject Matter

Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
